

Periodic maintenance on sewer lines help prevent buildup from soap, grease, sediment and other potential blockages.

Luckily, DNP Americas produces many different products for this specific industry in order to keep trucks and employees operating efficiently.

Sewer Cleaning Market Edition

DNP Americas

Fittings

- Camlocks all types all alloys
- Bauer type
- Clamps, filters, strainers
- Crimp technology

Suction Hose

- Water Suction - Rubber and PVC
- Orange Aqualiner, helix for extreme flexibility
- Debris Hose
- Oilfield suction
- Tank Truck 150 PSI
- Tank Truck 300 PSI
- Chemical Hose

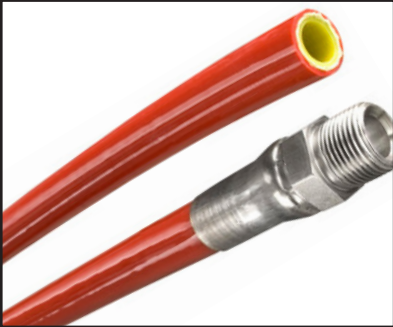

DNP Americas takes pride in quality and dependability in all and every product line carried. DNP has an in house testing facility to assure proper specifications are met; including hydraulic flow testing, pressure drop, burst testing, impulse testing, stem collapse, etc. DNP works with every customer to customize their needs.

Waterblast

- Short or long assemblies up to 200 ft
- NPT and Type “M” connections - available in Carbon Steel or Stainless Steel
- CRS waterblast quick couplings
- Waterblast high pressure valve and fittings to 60,000 PSI
- Sizes: 3/8”, 1/2”

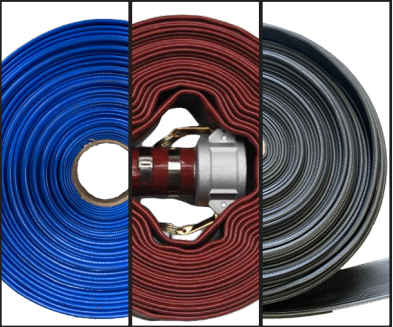

Hurricane Jetter Hose

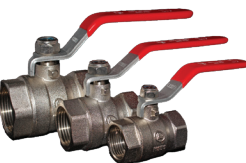

- Lengths available in 300’, 400’, 600’
- Male NPT 1-piece ends that will work in Parker swaging machines repairs
- PSI ranges 2,340 - 2,540
- Sizes: 1/2”, 3/4”, 1”

Discharge Hose

- All types of layflat discharge hose - Blue, Brick Red, Black
- Clamped with camlocks or bulk hose
- Bauer fittings
- Mill hose

Brass Ball Valves

- 600 PSI low pressure ball valve
- Brass valve with nickel plating
- NBR standard seals
- Sizes: 1/4” thru 4”

Tiger Tails

- Provides maximum abrasion protection for sewer jetting hose and other equipment
- Plastic construction is corrosion resistant and extremely flexible
- Sizes: 2” and 3”
